

SPC Rigid vinyl flooring is at least 50% better than traditional luxury vinyl tiles in physical performance owing to improvements in the dimensional stability, which is now four-times better. The SPC flooring is not only popular in North America and Europe, but also getting hot in Southeast Asia, Latin America and Africa, due to its amazing performance under huge variations of temperature and humidity.

Key Advantages:

❖ **Water-proof & Fire-retardant**

100% absolutely water-proof, can be installed in kitchens, bathrooms, laundry rooms and basements.

Fire-retardant, the flame on SPC flooring will be automatic out in 5 seconds and won't produce toxic or harmful gases.

❖ **Health, Safety & Environmental**

Safe & Sustainable, Say goodbye to formaldehyde, Anti-mildew and Anti-bacterial. Our products have passed the tests from more than 179 different types of hazardous materials and other chemicals;

❖ **Heat-and-cold Resistance**

No curling even in higher/lower temperature environment. SPC flooring can bear the temperature difference from -75°C to 80°C. The dimensional stability is brilliant. The shrinkage ≤ 0.002%, curling ≤ 0.2mm with EN434 standard.

❖ **High Strength**

High density Rigid core material, much stronger than regular LVT & strengthened click system.

Of course, SPC is also Anti-abrasion and Anti-slipping.

❖ **Incredibly Stable Quality**

Extremely stable, few expansion and shrinking (0.06%), this is the biggest advantage compared with regular LVT, WPC or laminate flooring. With the new upgraded formula, SPC flooring is more Rigid and stable, which enables it can be installed everywhere even suitable for under floor heating.

❖ **Others**

Superior indentation resistance.

Glue free, easy installation with click & locking system.

Super construction - Engineered for durability & designed for fashion

Attached XPE/EVA/CORK underlayment - provides acoustical benefits, comfort underfoot & will not support mold or mildew.
