SPC Flooring Specifications

What is SPC Flooring?

The SPC Flooring (Rigid Core LVP) is an upgrade and improvement of regular Luxury Vinyl Tiles (LVT), the main content of SPC are natural Lime Stone powder, Polyvinyl Chloride (PVC Resin) and Stabilizer which combined by a certain ratio to provide us a very stable composite material. And Camfly's SPC flooring is designed to exceed. The SPC flooring is made of the UV Coating, decorative paper, SPC core board and options for EVA or XPE and CORK. The SPC flooring is the new generation of floor covering, it's the same as laminate flooring, a floating system & using click & lock joint, can be easily installed on different type of floor base, you can put it on either concrete or ceramic or existing flooring etc.

Product's Specifications:

- Thickness: 4.0mm
- Wear Layer: 0.3mm
- Size: 7"(180mm) x 48"(1220mm)
- Weight: 1.8kg / per sheet (8.2kg / per sqm)

Structure:

Surface:

Deep Embossed

Key Advantages:

Water-proof & Fire-retardant

100% absolutely water-proof, can be installed in kitchens, bathrooms and basements.

Fire-retardant, the flame on SPC flooring will be automatic out in 5 seconds and won't produce toxic or harmful gases.

Health Safety & zero formaldehyde

Safe & Sustainable, say goodbye to formaldehyde, Anti-mildew and Anti-bacterial. Our products have passed the tests from more than 179 different types of hazardous materials and other chemicals;

Heat-and-cold Resistance

No curling even in higher/lower temperature environment. SPC flooring can bear the temperature difference from -75°C to 80°C. The dimensional stability is brilliant. The shrinkage≤0.002%, curling≤0.2mm with EN434 standard.

High Strength

High density Rigid core material, much stronger than regular LVT & strengthened click system. Of course, SPC is also Anti-abrasion and Anti-slipping.

Incredibly Stable Quality

Extremely stable, few expansion and shrinking (0.06%), this is the biggest advantage compared with regular LVT, WPC or laminate flooring. With the new upgraded formula, SPC flooring is more Rigid and stable, which enables it can be installed everywhere even suitable for under floor heating.

Others

Superior indentation resistance.

Glue free, easy installation with click & locking system.

Super construction - Engineered for durability & designed for fashion

Attached XPE/EVA/CORK underlayment - provides acoustical benefits, comfort underfoot & will not support mold or mildew.

Click install
